# Preface

The growth of IT ERA has brought an online revolution under which almost every manual work is changing into online computerized one.Doing so,has not just introduced computers in work, in fact has provided enormous other benefits also.Following the"Doctor Appointment Management System", We have tried to design a website using which users/patients can book their appointment with doctors online.This website will help to reduce effort at hospital reception.

We would like to thank my almighty -God has always blessed me and given me power to give real existence to my ideas.we would also thank our parents who have supported and motivated us.This list completes with the names of our teachers who have helped us in shaping our ideas.

This project report demonstrates what we learnt during the development of project and how efficiently and effectively.we have applied our knowledge to design this project

# Acknowledgement

This is a humble effort to express my sincere gratitude towards those who have guided and helped me to complete this project.A Project is a major milestone during a study period of a student.As such this project was a challenge to us and was an opportunity to prove my caliber.We highly grateful and obliged to each and every one making me help out of problems being faced by me.It would not have been possible to see through the undertaken project without the guidance of **Dr.Sunny Sharma**.It was purely on the basis of their experience and knowledge that we able to clear all the theoretical and technical hurdles during the development phase of this project work.

Last but not the least we are very thank full to our head of the department to Prof. Rama Sharma and all members of PG department computer science and applications.Who gave us opportunity to face real time problems.

Samriti Sharma,Rollno:10572007503

Jaspreet Kaur,Rollno:10572007504
