CONCLUSION

In a nutshell, this work has been an excellent and rewarding experience. I can conclude that there has been a lot I've learnt from my work at **Ample**.

The technical aspects of the work I've done are not flawless and could be improved provided I have enough time. As someone with no prior experience with AI whatsoever I believe my time spent on research and discovering it was well worth it and contributed to finding an acceptable solution to build a fully functional Graphics service. Two main things that I have learned the importance of our time-management skills and self-motivation
